Our story

The economic miracle in the 60’s
Our story

Our first production plant (1961)
Our story

Our first production
Our story

Our first pellet mill (1967)
In 1973 we chose Germany as the first step in our process of internationalization. Meeting new realities and business models worldwide allowed us to become increasingly competitive and sensitive to the needs of our clients.
La Meccanica in the world

Being as close as possible to our customers is essential. This is why we have decided to open several offices worldwide, with the aim of providing a fast and prompt service. Today La Meccanica is a big network that has grown over the years.
We give value to the people
PEOPLEFIRST@LAMECCANICA

For the Reffo’s family, people have always been the most valuable asset. For this reason, following the philosophy of its founder, La Meccanica has established an effective corporate welfare system, whose key points are: health, education, family and leisure.
We give value to the people

These are just some of the services offered by La Meccanica's welfare system:

- health assistance
- scholarships for the employees’ most deserving children
- bonus for nursery school and school fees
- company trips
- free technical training
The aim of the Academy is to train employees, keeping them up-to-date on the latest innovations in the technical and automation fields. Its strong points are:

**Technical Training**  **Research and development**  **Sharing of knowledge**
Our strengths

Technical approach  Professional updates

Problem solving  Respect for the environment and workers safety
Our markets
