Our first production

Our story

Our first pellet mill (1967)

La Meccanica in the world

- 75 % export
- 60 countries
- 35 agents & distributors

-  Headquarter
-  Our offices
-  Distributors

In 1973 we chose **Germany** as the first step in our process of internationalization.
Meeting new realities and business models worldwide allowed us to become increasingly competitive and sensitive to the needs of our clients.

La Meccanica in the world

Our network

Being as close as possible to our customers is essential. This is why we have decided to open several offices worldwide, with the aim of providing a fast and prompt service.
Today La Meccanica is a big network that has grown over the years.

We give value to the people

PEOPLESFIRST@LAMECCANICA

For the Reffo's family, people have always been the most valuable asset.

For this reason, following the philosophy of its founder,
La Meccanica has established an effective corporate welfare system,
whose key points are: health, education, family and leisure.

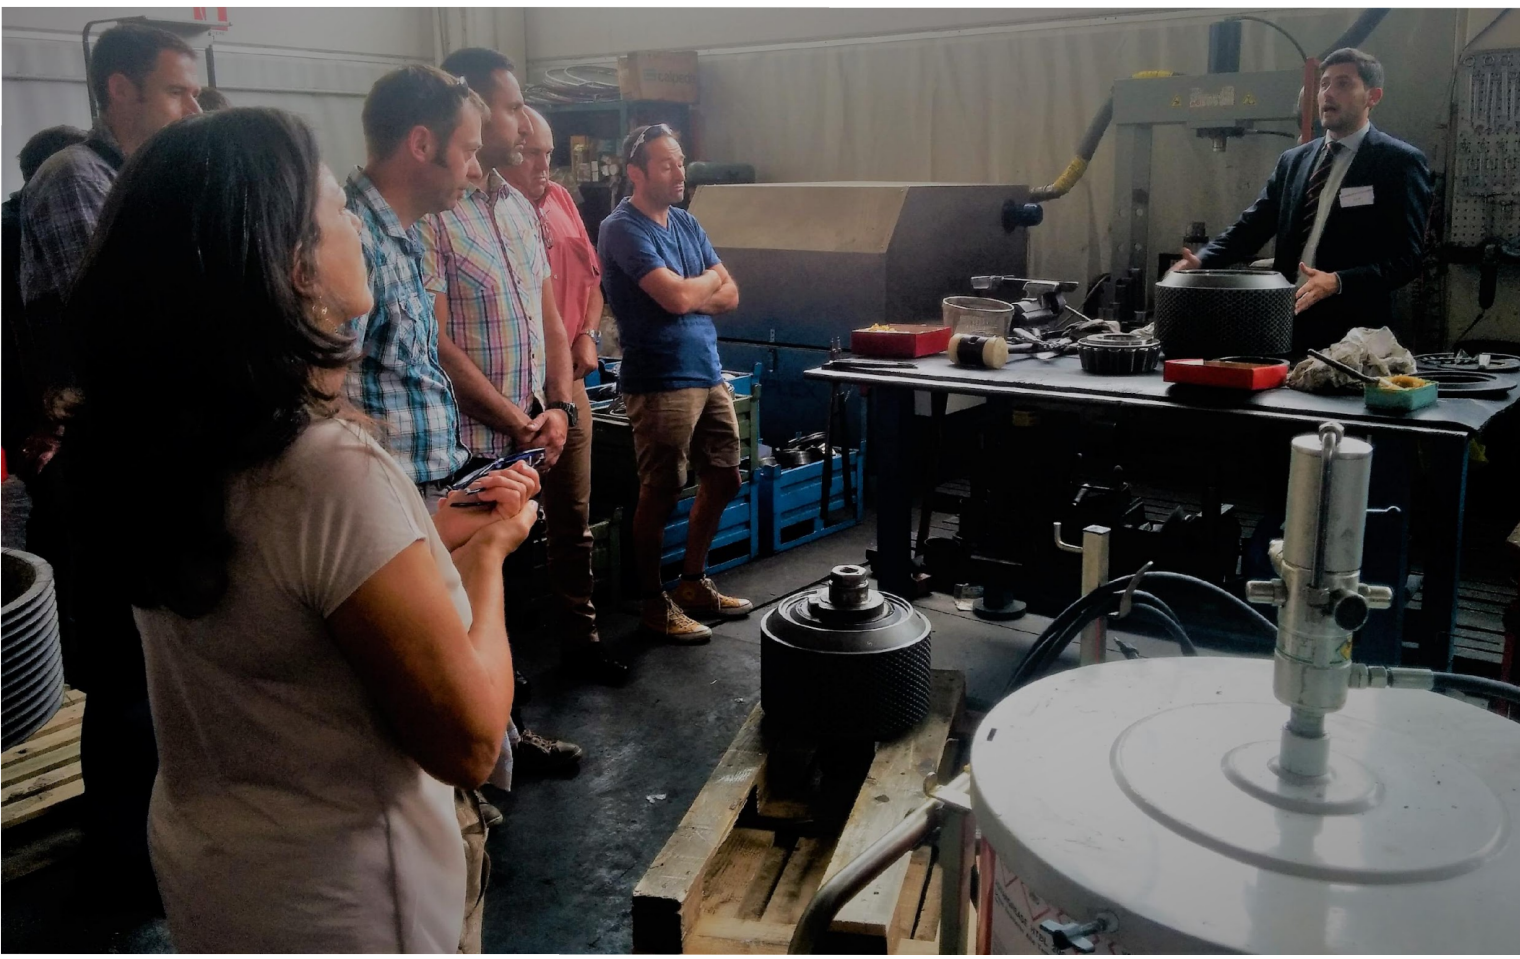

Academy and Training Center

The aim of the Academy is to train employees, keeping them up-to-date on the latest innovations in the technical and automation fields. Its strong points are:

Technical Training

Research and development
